

ALAN BINU

Data Analyst | Business Analyst | Power BI Developer

📍 Kochi, Kerala, India | ✉ Email | 🔗 LinkedIn | 💻 GitHub

👤 PROFILE

MBA graduate in Business Analytics with hands on experience in Python, SQL, Power BI, and Machine Learning. Built a Power BI portfolio analytics dashboard using 33 DAX measures and developed a Random Forest churn prediction model achieving **87.56% accuracy** and **0.9084 AUC**. Passionate about transforming business data into actionable insights for decision making.

🔧 CORE SKILLS

- **Programming:** Python, SQL, DAX
- **Data Analysis:** Pandas, NumPy, Feature Engineering, Statistical Analysis
- **Machine Learning:** Scikit-learn, Random Forest, Classification, Model Evaluation (Precision/Recall/AUC)
- **Business Intelligence:** Power BI (Data Modeling, DAX, Power Query), Star-Schema Design, KPI Design
- **Data Visualization:** Matplotlib, Seaborn, Power BI Visuals
- **Tools & Platforms:** Jupyter, Streamlit, Git/GitHub, Excel

🚀 FEATURED PROJECTS

💻 Credit Card Portfolio Risk Analytics Dashboard GitHub

Power BI • SQL • DAX • Power Query

- Designed a **star schema** data model to support efficient portfolio analytics and reporting.
- Developed **33 DAX measures** for utilization, delinquency, outstanding balance, and customer risk segmentation.
- Built an **interactive executive dashboard** with drill through capabilities, enabling portfolio level monitoring and customer level risk analysis.

📊 Telecom Customer Churn Prediction System GitHub

Python • Pandas • Scikit learn • Streamlit

- Processed and engineered features from **74,983 telecom customer records** for predictive modeling.
- Trained a **Random Forest classifier** achieving **87.56% Accuracy** and **0.9084 AUC**, evaluated using Precision, Recall, and ROC AUC.
- Deployed the model as an **interactive Streamlit application** for real time churn prediction and retention decision support.

📁 EXPERIENCE

Customer Service Associate — Sutherland Global Services, Kochi

- Achieved KPI driven performance targets in a high volume customer support environment while developing a strong understanding of operational metrics and business performance.
- Applied structured problem solving to investigate recurring customer issues, identify root causes, and transform customer feedback into actionable business insights.
- Communicated complex information effectively under pressure, strengthening stakeholder communication and analytical decision making skills transferable to Data Analytics and Business Intelligence roles.

🎓 EDUCATION

Master of Business Administration (Business Analytics)

SRM Institute of Science and Technology

January 2024 – December 2025

CGPA: 8.48

🏆 PROFESSIONAL CERTIFICATIONS

- 🏆 Claude 101 Certification
- 🏆 Claude Code 101 Certification
- 🏆 Claude Code to Action Certification
- 🏆 Claude Platform 101 Certification
- 🏆 Introduction to Claude Cowork Certification
